WALL SLIDEOUT SYSTEM ERROR CODES

During this, I am just wondering what kind of system it is and what kinds of things I need. Apparently the owners manual is absolutely worthless and tells nothing of importance. It does not have the Schwintek In-wall slides that you may have read. Most of the wiring harnesses are designed for Schwintek™ slide-out set ups. Wall Slide Control is found in the newer Schwintek™ in wall slide out system that was has a replacement part # of 13398-C2 and does have a manual override. Here is the manual with instructions on how to adjust...

If it is a Lippert slide, like I said, it's a sealed system. Will a wall switch still turn on a light or will the switch for the slide out still work. I have the Schwintek system and it works well.
